Thole. J. Richard Jackson, Burd P. Evans & Co., A. L. Fretz & Son, Calvin W. Rogers and George C. Lyon, builders, have submitted estimates.

The First Presbyterian congregation of

Buffalo, N. Y., contemplates erecting a new edifice in that city for mission and Sunday school work. The Board of Trustees is now discussing size and character of the proposed new structure. No architect has yet been selected. Rev A. V. Raymond, 268 North street, Buffalo, is the pastor, and can furnish information.

It is stated that Earnest Flagg, architect, 35 Wall street, New York City, has been commissioned to prepare plans for a fourteen-story brick addition, measuring 25 x 100.5 feet, at 320 West Forty-fourth street, that city, for Messrs. The First National Bank of Hoboken, N. J., proposes to build a new one-story marble banking house, measuring 50 x 75 feet, at the corner of Newark and Hudson streets, that city. Seven architects submitted competitive plans and the work was awarded to Kenneth M. Murchison, 320 Fifth avenue. The new building will be a finely finished structure with mezzanine floor, safe deposit vaults and all modern facilities. Work is expected to start about the last of April.

William T. B. Roberts & Son, Land Title Building, have completed negotiations for the sale of two large building lots, located in the northwestern section of the city, for P. A. B. Widener. The purchaser is Lawrence Groskin, who, it is stated, represents a builder. Miss Minnie D. Coates, chairman of the Juvenile Court Committee's property committee, in Chester, Delaware county, Pa., has ascertained that the present accommodations of the Detention Home on Crosby street, near Third, are not large enough to meet the requirements and has asked Prof. Thomas S. Cole, superintendent of the public schools, and Truant Officer Thomas Humphreys to collect a number of prominent Chester citizens to inspect the property at 517 Welsh street as a site for a new and up-to-date home. THAT MAN CHRISTENSEN

whose first name is Adolph, and whose office is located at 1433 Brown street, is very busy just now with his many men renovating the fronts of brick houses.

CHRISTENSEN does this work by his process of cleaning and repointing the brick that the whole front looks even better than it did when first erected. The work does not cost as much as repainting, while it looks very much better, for it brings out the world renowned beauty of the old time Philadelphia pressed brick front.

CHRISTENSEN'S process is a sure cure for the unrentable dwellings. Owners as well as Real Estate agents should make a note of this fact.

NOTE.—Alterations and additions costing \$300 and over only are included.

If there is a real estate broker who is of the opinion that the real estate market, in this city, was either dull or apathetic during 1908, he is certainly laboring under a wrong impression, and if, perchance, he is disposed to gauge the market by his own indifferent success or absolute failure, then he should direct his inquiry or, rather, his investigation to himself, and in this instance the word himself is intended to apply to his business methods, his energy, indeed, to his entire personality.

In justification of this statement we refer to the real estate business in this city during 1908, which we have referred to heretofore as the year of exhilaration, when everyone in and out, of ecstatic delight over their wonderful success. This of that year proclaimed the greatness of the market, and indeed many were affected with a sort of nervous ecstatic delight over his wonderful success. This in face of the fact that there were only 21,403 transfers of real estate during the 12 months of 1908, or only 17.1% less in 1908, while in 1905 the investment was greater than in 1908 by \$10,612,018.10, this too, as well as with a half dozen other facts, 1908 in its entirety suffered from the worst money tie-up as well as industrial prostration ever experienced in this country.

Someone has written that "the mind grows on what it feeds," and this should hold good with our popular and successful real estate broker as well as with other people, and if Mr. Brown or Mr. Jones suffered in business restriction during 1908 as a natural result of conditions, his estimate of results is likely to be gauged by those of some previous ear and not by existing conditions.

To put it in another way, it must be mentioned that 1908 was not characterized by the transfer of costly properties, and indeed, Mr. Bruce Barrow, who makes a specialty of manufacturing sites and lots, can tell you that business in that direction—and that means costly investments—was particularly hard as well as scarce.

The conditions during 1908 were not only drastic, but so far-reaching that the surprise is that anyone should feel disposed to complain over this year's business results in real estate, for there are hundreds at the head of our great manufacturing concerns who can give facts and figures which seem infinitesimal.

As to the future of the real estate market, it is problematical, for the question is as much one of disposition as well as ability. Consideration from this point may prove distasteful to a few, but even they must admit that, first, any proposition to increase the tax rate is not a wholesome influence, to say the least. Second, empty houses and a scarcity of renters, is not an encouraging factor. Third, the exodus of no inconsiderable part of our laborers to foreign shores and the dead center of a delayed industrial resumption will also delay the return of the Italian end of the proposition because an American cent buys five times more living in Italy than it will buy in America. Is this not plain as well as logical?

As another part of a very large proposition we submit for consideration the fact that in 1905, 1906, 1907 and 1908, there were erected in this city 30,150 two-story and 3,743 three-story dwellings, or in the way of small dwellings, 33,893, or very comfortable living accommodations for 169,475 people. The last census, as we recall it, showed that the average growth of the city's population was 25,000 yearly, or enough to justify the construction of 5,000 of these living buildings yearly. This against the yearly average construction of 4,474 of these self same buildings for the past four years, will, we think, act as somewhat of a check upon the optimism of the over-ardent optimist as to the future unless a genuine McKinley boom, as heretofore, soon becomes apparent. This, we assert, is not pessimism; we believe it to be horse sense.

On the other hand, as an offset to all of this, it must be kept in mind that, unlike the condition which prevailed previous to Mr. McKinley's election, the vast Western agricultural population was not harmed during 1908, even a fearful, for while there was quite apparent a restricted, conservative buying disposition, wheat, corn and cotton paid well for the raising, and the barthens of our Eastern bankers met with meriment and dejection by the people of the grain and cotton States, but on the other hand the shelves of the Western workpeople were depleted previous to the McKinley rehabilitation, which necessarily created a sudden abnormal demand on the Eastern manufacturers, just as soon as Leiter's corner in wheat materialized, which ended with his disaster only after he had forced up its price to \$1.70 per bushel, but we have no reason to expect such another sudden, abnormal demand upon our Eastern industrial ability just now, because the "shopkeepers' shelves were not depleted during 1908; nor has there been at any time since such a clean up and wearing out of the necessities of life in the Western, Southern and Southwestern States as before Mr. McKinley's election.

We give every table of two, three and four-story dwelling construction since 1887, inclusive:

TWENTY-SECOND GERMAN-AMERICAN CHARITY BALL.

Our German citizens have the knack of associating their amusements with charity thus serving a double purpose. In the case of the Maennerchor Society, of this city, for many years' the net proceeds of their annual charity ball have been divided among many charitable institutions. The ball this year will be held at the Academy of Music, on the evening of February 1st. This will afford a grand opportunity for an evenings pleasure associated with the satisfaction that the money will be utilized for the benefit of suffering humanity. The institutions that are to be benefited this year are as follows: The Rush Hospital for Consumption and Allied Diseases and the Samaritan Hospital. Tickets can be procured from the members of the society, the box office of the Academy on the day of the ball and at 1115 Chestnut street.

One of the oldest concerns in this city engaged in the production of decorative plaster work and its specialties is the firm of F. R. DePlanque & Son, who has removed from their former place of business to more extensive quarters at the southeast corner of Franklin and Wood streets, where it will occupy the entire building. In order that this concern may not be confounded with some other in the same line we state that its removal was from its old quarters, 341 North Fourth street. It still retains its close touch with all the architects and builders of the country, and its new quarters will afford opportunity for increased business.

ARCHITECT'S NOTES.

Oliver Randolph Parry, architect, 1723 Chestnut street, has awarded a contract to Builder James E. Hazzard, to build five three-story dwellings in Lansdowne, Delaware county, Pa., for the MacWaters-West Company. They will be built in different styles of architecture. One will be built in the Spanish mission style with white stone and red tile roof, another in the Colonial style, one in the English half-timber style and the remaining two of rambling suburban style. They will contain fourteen large rooms each. Mr. Parry has provided for every modern appointment in the preparation of the specifications which call for several new features in modern house construction. They will be beautifully finished in hard oak, sanitary plumbing, hot water heat, gas and electric fixtures, tile baths, etc. This operation, when completed, will cost in the neighborhood of \$50,000, and will be one of the finest ever erected in that locality.

E. Allen Wilson, architect, 815 Land Title Building, has distributed plans and specifications among builders for the new apartment house, to be built at Forty-fourth and Chestnut streets, for the Real Estate Bonding Co. The plans call for a four-story structure of ornamental brick, with terra cotta and limestone trimmings, measuring 150 x 80 feet. It will be finely finished on the interior in oak, birch, chestnut and enameled wood, tile work, modern open plumbing, hot water heating, electric lights. A roof garden has also been provided for. The building is estimated to cost in the neighborhood of \$90,000. Metzger & Wells, Frank T. Maguire, Calvin W. Rogers, A. Raymond Raff, Smith-Hardican Co., Thomas M. Seeds, Henry E. Baton, F. C. Michaelsen, Jas. Braden, Richard McDougall and Thomas Kilgough are estimating. The same architect has plans on boards for seventy two and three-story brick dwellings to be built in Germantown by G. Wallace Simpson. He also has plans on boards for alterations to the property at 5507 Spruce street. It will be altered into a flat house for F. Sabin. He is making sketches for three two and a half story shingle residences to be built at Logan station. Also sketches for a four-story apartment house, 40 x 35 feet, to be built at Fifty-second and Pine streets, to contain four flats, with all up-to-date improvements. Plans are being completed by the same architect for a handsome colonial residence, to be built at Oakdale and Roberts avenue, Glenside, Pa. Owner's name withheld.

Naschold & Knutzen, architects, have removed from 1118 Chestnut street to 984 Drexel Building.

David Knickerbocker Boyd, architect, Harrison Building, has plans on boards for a two-story stone school building, to be built in Wayne, Pa.

Mellvain & Roberts, architects, Land Title Building, are engaged on plans for a two-and-a-half-story residence, to be built in Ardmore, to cost about \$15,000.

Ralph E. White, architect, Penna. Building, is engaged on plans for alterations to the southeast corner of Fifteenth and Chestnut streets, for George B. Wilson.

Sauer & Hahn, architects, 1112 Chestnut street, have plans on boards for a new front and alterations to the building at 931-937 Market street, for Samuel Snellenburg and Harry M. Nathanson.

The North Baptist Church congregation, of Frankford, has commissioned J. Harold Murphy, architect, to plan a new stone edifice to be built on Frankford avenue, above Harrison street, to cost about \$40,000.

Stearns & Castor, architects, Stephen Girard Building, have completed plans for a one-story stone addition, 18 x 50 feet, to the Trinity Presbyterian Church, at the southeast corner of Frankford avenue and Cambria street, to cost about \$16,000.

David Knickerbocker Boyd, architect, Harrison Building, has finished plans for two two-and-a-half-story stone and frame residences, to be built in Merion, Pa., to cost about \$20,000. The same architect has also finished plans for a two-and-a-half-story stone and frame residence, to be built in Bryn Mawr, Pa., for J. H. Brownbeck.

Savery, Scheetz & Savery, architects, Stephen Girard Building, have invited bids from R. C. Ballinger & Co., Appleton & Burrell, D. Knauer Co., S. L. Sherman and J. D. Lengel on a two-and-a-half-story stone and rough cast residence, 57½ x 42½ feet, to be built in Moylan, Delaware county, Pa., for J. Haines Lippincott. Bids due February 1.

Dühring, Okie & Ziegler, architects, Bailey Building, have invited estimates from Frank F. Wallace, R. C. Ballinger & Co., Thomas M. Seeds, Jr., Appleton & Burrell, Bird P. Evans Co., and W. W. Rex's Sons on a two and a half story stone and plaster dwelling, 65 x 27 feet, to be built at Wissahickon avenue and Greene street, for W. M. Canby.

John D. Allen Co., architects, Betz Building, have completed plans and specifications for the four-story brick and concrete hospital building, measuring 105 x 115 feet, to be built at the northeast corner of Fifteenth and

Chestnut streets, for the American Oncologic Hospital. George H. Stewart, Jr., is president of the Hospital Board, and bids will shortly be invited.

St. John's Lodge, No. 1, F. and A. M., of Newark, N. J., has purchased a site at Franklin street and Vroom alley, that city, for a price said to be about \$40,000, upon which a new building will be erected. No architect has been engaged yet to prepare the plans. The trustees are George W. Wiedenmayer, Herbert C. Rorick, Charles E. Hill, Charles E. Gleason, Sr., and George W. Jagle.

George S. Morris and Richard Erskine, architects, 515 Stephen Girard Building, have invited estimates from R. C. Ballinger & Co., William R. Dougherty, F. L. Hoover & Sons and H. E. Grau Co., builders, on the one-story and basement stone library building, 65 x 35 feet, to be built in Cheyney, for the Institute for Colored Youth. The same architects are preparing sketches for a two-story frame cottage to be built at Corson's Inlet.

Albert J. Bodker, architect, 244 Fifth avenue, New York City, has been commissioned to prepare plans for a twelve-story apartment house, 125 x 155 feet, to be built on Central Park West, at the corner of Ninety-third street, to cost about \$1,500,000. The plans are now being worked out, and it is being decided as to what material to be used for construction. The company who will erect the proposed structure is headed by H. Allen Dalley, of this city.

Lawrence Visscher Boyd, architect, Harrison Building, has distributed plans for estimates on two two-and-a-half-story residences, to be built in Lansdowne, Delaware county, Pa., for T. A. Bradley. One will be in the Colonial style of architecture, 40 x 33 feet, built of stone and rough cast, and the other in the English style, half timber, 44 x 25 feet. William R. Dougherty, E. J. Hedden, McCintock & Weaver, H. E. Grau Co., Ingham & Lewis, W. C. Shuster, Jr., F. A. Havens & Co., P. J. McDevitt and John A. Codori are estimating.

Colonel Charles R. E. Holz and several other officials of the Salvation Army, now at 1332 Arch street, are negotiating for several properties in the central section of the city, for the purpose of building a large new headquarter building, to cost about \$100,000. It is proposed to build a six-story brick and stone structure with an auditorium to seat 1,000 persons. It will also contain about 125 bed rooms, a sitting room, library, bath rooms, etc. It will be heated by steam and lighted by electricity, according to the present plans. Colonel Holz states that a number of wealthy citizens have agreed to finance the new enterprise.

Wood pavement for Market street, as suggested by the merchants of that thoroughfare, would soon prove to be fully as insufficient as our present filtration system. Wood pavement is no new experiment either in Philadelphia or New York. Broad street was once paved with wood pavement; so also were Broadway, South and other streets, in New York City. In each case it was established beyond controversy that wood pavements of any description could not stand the strain of travel, as well as heat and moisture, and in each case they presented the most dilapidated case of insufficiency and durability ever witnessed. The recommendation of the teamsters that the street should be paved with granite blocks is good horse sense, for they know about every feature involved in the proposition, as well as in every direction, as there are plenty of the merchants of Market street who could not explain the difference between a belly band and a breechin strap. Granite blocks are preferable in every direction, and the teamsters know why, and the merchants do not. If the city had gone to the head of the Schuylkill river for its water supply, instead of fooling away millions on a nonsensical filtration system, we would have had by this time a bountiful supply of the best and purest water in the world.

One plan would leave the ocean at Point Pleasant, take the present county road toward Lakewood as far as Burrsville, and build the link from Burrsville to Toms river. The next, favored by Governor Fort, would follow the "Beach road" through Point Pleasant and Bay Head down the ocean front to Mantoloking, cross Barnegat Bay over the Mantoloking bridge, and then reach Toms river by practically the same route as No. 1. The third route, which is favored by the Toms River Board of Trade, the inhabitants of Island Heights, Lavallette Borough, and many in Seaside Park Borough, would follow the beach to the upper edge of Seaside Park, where it would bridge Barnegat Bay at its narrowest part to the north bank of Toms river, would touch Island Heights borough, and join the shore road at Toms river. The fourth route, said to have the indorsement of State Road Commissioner Gillyson, would follow the beach road till south of Seaside Park and thence by a bridge across the wide portion of Barnegat Bay, reach the mainland, cutting out Toms river and Island Heights entirely. The Board of Trade indorsed the third plan.

A. A. Richter, architect, New Shenk Building, Altoona, Pa., has been selected in competition to design an entire group of parish buildings, comprising a church, Sunday school and parsonage for the Trinity Evangelical Lutheran Church, Patomac street and Randolph avenue, Hagerstown, Md., Rev. J. S. Simon, pastor. The preliminary plans will call for a church building, measuring 64 x 116 feet, which with a small gallery, will accommodate 800 seatings. The Sunday school building measures 70 x 80 feet and with the usual Sunday school gallery will accommodate 1000 scholars. Ample exits and entrances are provided for and the entire work will be designed in the perpendicular Gothic style. The parsonage will be 32 x 64 feet, containing 12 rooms, and the design to harmonize with the church. The kind of building materials has not yet been definitely settled, but sandstone, marble or granite will be used for the exterior, with oak finish and pews on the interior. Bids will be asked for as soon as plans are completed, which will be about the 15th of March.

Charles P. Baldwin, architect, 45 Clinton street, Newark, N. J., has prepared plans for two stucco dwellings to be erected on Ballantine Parkway, Newark, N. J., at a cost of about \$25,000, for Mr. Benjamin S. Whitehead. The structures will have fine interior finish, tile and marble work, sanitary plumbing, steam heat, electric lights.

C. F. Hoppe, architect, 103 Park avenue, New York City, will invite bids about the 15th inst. for a twelve-story granite, terra cotta and bluestone store and loft building, 85 x 193 feet, to be built at the southeast corner of Second avenue and Twenty-second street, that city, for the Schlegel Investing Company, to cost about \$500,000.

Schneider & Irvin, York road above Erie avenue, have sold two tracts of land, one 495 feet x irregular shape, at the northeast corner of Tenth and Butler streets, and the other, 495 x 371 feet, at the northeast corner of Tenth and Pike streets, to Israel Hecht, for a nominal consideration, subject to mortgages amounting to \$119,300.

The Board of Public Education of Hoboken, N. J., has secured an appropriation of \$250,000 for the purpose of erecting a new school building at Bloomfield Garden, Fourth and Fifth streets, that place. No architect has yet been engaged. Edward Russ is president of the school board; George Lankering, vice-president; William A. Kerr, secretary, and A. W. Clayton, business manager.

Chestnut streets. The William Steele & Sons Co., F. C. Michalsen, A. Raymond Raff, H. L. Brown and the Lam Building Company are estimating.

The plans of George U. Rehffuss, architect, 26 South Fifteenth street, have been chosen in competition for the proposed alterations and rear addition to the old Childs' mansion, at Twenty-second and Walnut streets, for Sydney Asher. The plans call for a two-story rear addition to match the present building, 48½ x 148½ feet, to contain two pools, Turkish bath department, etc.

Wilson, Harris & Richards, architects, have finished plans and invited estimates on same for a three-story residence and garage, to be built at Westview and Sherman streets, Germantown, for Alfred C. Gibson, William R. Dougherty, The William Steele & Sons Co., Appleton & Burrell, F. L. Hoover & Sons, George F. Payne & Co., Thomas Reilly and Wm. H. Eddleman, builders, are bidding.

Charles E. Oelschlager, architect, Harrison Building, 1500 Market street, has completed plans and alterations to the properties at 413 to 417 South Fifth street. They will be altered into a moving picture parlor for an amusement syndicate, and will cost about \$10,000. Edward Fay & Son, Robert Tarlo & Son, E. J. Kreitzburg, George Hogg and James G. Doak & Co., builders, are estimating on the work.

Henry P. Emerson, superintendent of public schools of Buffalo, N. Y., states that competitive plans will be invited from architects for a new three and a half story technical high school building to be built at that place, at a cost of \$400,000. The successful architect will be paid 3½ per cent. commission for his plans. The second best plan will win a premium of \$500; the third, \$400; fourth, \$300, and the fifth \$200. A committee of city officials will select an advisory architect to assist.

Carl P. Berger, architect, 1416 and 1418 South Penn Square, has distributed plans and specifications among local builders for the new Villa Langenau, to be built in Cape May Point, N. J., on the beach front. The plans call for a three-story and basement brick and frame structure, 46 x 78.2 feet, to contain public room, dining room, kitchen, pantry, laundry, store rooms, bath house and twenty-six bed rooms, with baths and all modern appointments. Bids are due February 9th. When completed the building will take the place of the one destroyed by fire about two years ago, of which John D. Lankenau was the original donor.

The Soldiers' and Sailors' Memorial Commission of Albany, New York, consisting of Major John L. Newman and John T. Norton, has adopted the following rules for the com-

petition of designs for the granite and bronze memorial, to be built at the northern boulevard entrance to Washington Park, at an estimated cost of \$90,000. Judges of designs: Arnold W. Brunner, Union Square, Manhattan; Daniel C. French, sculptor; Will H. Low, painter. Competition is by request only. Designs are to be submitted on or before May 1.

F. Russell Stuckert, architect, 1420 Chestnut street, has distributed plans among builders for the six-story brick and terra cotta store building addition, measuring 19½ x 127 feet, to be built at 34 North Eleventh street, for Harry C. Kahn, of 32 North Eleventh street. The following builders are estimating: William R. Dougherty, Joseph Bechtel, The Charles McCaul Co., John R. Wiggins & Co., Frank T. Maguire, Edward Fay & Son, P. J. Hurley, Stacy Reeves & Sons and J. G. Doak & Co.

A. A. Richter, Lebanon, Pa., has been commissioned to prepare plans for extensive alterations to Grace Reformed Church, at Avon, Pa., of which Rev. A. G. Peters is the pastor. The plans will include a gallery, new stairways, a library, new heating plant and other improvements. The same architect has been retained to prepare plans for a parsonage for the same congregation. It will be finely finished throughout in hardwood, open plumbing, steam heat, tile work and all modern conveniences. Work on alterations to the church will begin as soon as the contract is awarded.

It is stated that Senator-elect Elihu Root has bought a large lot in Washington City, on the east side of Sixteenth street, almost adjoining the home of Secretary of State Robert Bacon. The lot has a frontage of one hundred and thirty-five feet on Sixteenth street and a depth of one hundred and twenty feet. The price paid was \$80,000. It is said that a New York firm of architects has been commissioned to prepare the plans, which will call for a handsome structure of ornate design, with magnificent interior finish and decorations, and provided with every known modern convenience.

C. B. J. Snyder, architect, 500 Park avenue, New York City, has plans in the course of preparation for the proposed new school building to be built on Flarhush avenue, near Granite street, Brooklyn. ARCHITECTS' NOTES

Folsom, Stanton & Crowe, architects, 1072 Drexel Building, are completing preliminary plans for a frame cottage to be built in Wildwood, N. J., for George Dawson, of Germantown, to cost about \$3,000.

J. Horace Cook, architect for the Board of Public Education, Room 742, City Hall, is preparing plans for the new eighteen division brick and stone school building to be built at Franklin and Sellers streets, Frankford, to cost about \$175,000.

Bailey & Bassett, architects, 421 Chestnut street, have plans in the course of preparation for a two and a half story residence, measuring 30 x 60 feet, to be built in Riverton, N. J., for Miss Helen Lippincott. Plans will be ready for bids in about two weeks. The same architects are completing plans for alterations to the administration building of the Moses Brown School in Providence, R. I.

It is stated that Martin E. Greenhouse, 123 S. Broad street, is completing negotiations with a syndicate of New York capitalists for the purchase of the old Colonnade Hotel property, at the southwest corner of Fifteenth and Chestnut streets, for a consideration of \$1,200,000. It is also stated that it is the purchaser's intention to build a new building on the site, to cost about \$800,000.

Horace Groskin, real estate broker, Land Title Building, has negotiated a sale whereby Frank G. Faulkner, builder, takes title to a large tract of land on Tioga street, east of Kensington avenue, for a consideration of about \$25,000. The purchase was made by Mr. Faulkner for the purpose of erecting about forty-five two-story modern brick residences, to cost in the neighborhood of \$100,000.

Watson & Huckel, architects, 1211 Walnut street, have distributed plans for estimates on the five-story and basement brick warehouse, measuring 216 x 134 feet, to be built on Seventeenth street, below Indiana avenue, for H. D. Dougherty & Co. William K. Dougherty is estimating. The same architects will have plans ready for estimates about April for the new seven-story fireproof reinforced concrete hotel, measuring 400 x 200 feet, to be erected on the site of the old Pannaci Hotel, in Seabright, N. J., to contain about 300 rooms. It will cost in the neighborhood of \$600,000. The owner's name is withheld for the present.

Wilson, Harris & Richards, architects, Drexel Building, have distributed plans and specifications among builders for estimates on a two-story brick factory building, measuring 50 x 150 feet, to be built at Protectory Station for the Catholic Protectory for Boys. The following is a list of builders estimating: Appleton & Burrell, Cramp & Company, L. H.

Focht, Melody & Keating, Charles McCaull Company, F. T. Maguire, Jacob Myers & Sons, George F. Payne & Company, J. E. & A. L. Pennock, Thomas Reilly, Stacy Reeves & Son and John R. Wiggins & Company.

C. H. Lloyd, 216 Market street, Harrisburg, Pa., has prepared plans for an apartment house to be erected on a site recently bought at Front and Forster streets, Harrisburg, by Mr. George E. Watts. The lot is 25 x 104 feet, and the structure will be three stories high, of brick, with stone trimmings, well finished interior and all modern conveniences, open plumbing, tile work, electric lights. There will be three suites of apartments, with every modern convenience. The cost will be \$25,000. Work on the construction will begin as soon as the plans are ready and contract awarded.

Charles M. Wells, architect, has removed from 518 Walnut street to 717 Walnut street. THE SURVIVAL OF THE FITTEST.

This as a maxim, old and tried as it was, used to be used to demonstrate the survival of children as well as young animals under conditions that were drastic and death dealing. In a business sense this old maxim is freely used to justify the continued success as well as the existence of prosperous business concerns, who, notwithstanding prevailing business conditions, find plenty to do in the way of business, but whose business keeps on steadily increasing.

The only justifiable reason for this, in the face of the fact that other concerns in the same line have gone behind and even failed, is capital, ability, application, skill and fair and honest methods in their business transactions. This seems to us to be the only reasonable interpretation of one man's success against another's failure. This we believe to be the secret of the steadily increasing growth of the business of A. & G. Bohem, at Fifteenth and Federal streets, who make a specialty of the manufacture of architectural sheet metal work of all kinds. Good work, together with the above qualifications must be the influence which commanded the patronage of those in charge of the following contracts which these young business men have just completed: Marquise, at Lit Bros, Eighth and Market streets; one also on Eleventh below Chestnut street, for C. Eagle. Interior art metal work for the Guyer Hat Co., of Boston, Mass. Copper towers, etc., for St. Mary's Church, of South River, N. J., and St. Francis De Sales Church, in this city, and the corrugated iron work on the Industrial Dye Works. Messrs. A. & G. Bohem have in course of completion the most elaborate catalogue of new designs of their metal work in all of its many ramifications ever submitted to the public. This expenditure, in the face of the present depressed conditions of business, expresses nerve and enterprise which must have a telling effect in commanding the attention of architects, builders and owners in the future. It must be understood that this firm was established in 1897.

ARCHITECT'S NOTES.

Walter Smedley, architect, Stephen Girard Building, has finished plans for alterations and additions to the Friends Institute at 20 South Twelfth street, to cost about \$20,000.

Lawrence Visscher Boyd, architect, 1500 Market street, has received bids from George C. Herbert, Daniel W. Sperry, P. J. McDevitt and A. L. Pretz & Son, builders on the two and a half-story residence, measuring 44 x 28 feet, to be built in Wyn-cote, Pa. The owners name is withheld.

J. R. Gieske, Ceredo, Va., has prepared plans for a church, to be erected for the Methodist Episcopal congregation, South, at Paintsville, Ky. It will be of native sandstone, 60 x 97 feet, fine interior finish, and all modern conveniences. Rev. C. A. Slaughter is chairman of the building committee. Bids for its construction will be received until March 1 at the office of Mr. J. C. C. Mayo, of Paintsville. A certified check for two hundred dollars must accompany each bid. Copies of drawings, etc., may be obtained at the office of the architect upon deposit of twenty-five dollars, or at office of Mr. J. C. C. Mayo.

At Richmond, Va., the Mechanics Saving Bank will erect a bank and office building, at a cost of about \$30,000. It will be three stories high, of brick and stone, electric and gas lighting, steam or hot water heat, elevator, hardwood finish, tile and marble work. Mr. John Mitchell, Jr., is the president, and has not as yet selected an architect to prepare the plans.—The American National Bank, of Richmond, has bought a lot, 27 x 100 feet, and will erect a new building, for which no plans have yet been prepared. Mr. Oliver J. Sands is the president, and can give additional information.

The U. S. Senate has adopted the committee amendment for the District of Columbia Appropriation Bill providing for the purchase of two tracts of ground either in Maryland or Virginia as sites for the proposed new reformatory and a work house, for the District of Columbia.—G. Grosvenor Dawe, 705 Union Trust Building, Washington, D. C., managing director of the Southern Commercial Congress, has announced that as yet nothing definite has been done toward the erection of the proposed office building in Washington, which is to cost \$1,000,000. Mr. Charles Hall Davis, of Petersburg, Virginia, is chairman of the Executive Committee and can give additional information.—It is stated that \$150,000.

Dr. A. J. Cohen, 723 Pine street; Dr. Max Staller, Maurice J. Speiser, H. Wolf, S. C.

Kraus and Charles Kregel, organizers of the Philadelphia Jewish Sanatorium for Consumptives, have purchased a seventy-acre tract of land in Eaglesville, for a nominal consideration subject to a mortgage of \$5,000. The purchase was made for the purpose of establishing a sanatorium for the free treatment of consumption of the Jewish race, as there is no such sanatorium in Pennsylvania. There is an old farmhouse and stone barn on the site. The barn will be remodeled into an infirmary and pavilion and the farmhouse will be used as an administration building and general dining hall. Other improvements will be made at once also; and shacks will be built. It is proposed to start work as soon as possible, so as to have the sanatorium ready for use by May 1st.

C. E. Schermerhorn, 430 Walnut street, has completed preliminary drawings and specifications for an English residence, to be erected at Oak Lane, Pa., for Mr. J. Scott Fowler. The first floor will be of stone, second floor of half timber work and plastered brick walls. The house will measure 45 x 26 feet with a service extension. The first floor contains a library, reception hall, dining room, pantry and kitchen; second floor, three large chambers, two baths, study and solarium; third floor, a billiard room, guest chamber, servants' rooms, bath and store room. The main part of the house will be finished in white enamel, the balance in chestnut. Mantels, tile work, cement cellar floor, green slate roof, hardware, hardwood floors, painting, plumbing, hot water heating, electric and gas lighting, etc., are included. Estimates are to be sent to the owner, February 26th. The following contractors are estimating: Daniel W. Sperry, James Bartleson, J. H. & T. W. Dagny and Smith, Hardican Co.

Ballinger & Perrott, architects and engineers, 1211 Arch street, have completed plans and invited bids on the new apartment house, to be built at the southwest corner of Wayne and Cheltenham avenues, Germantown, for J. W. Ross. The plans call for a handsome structure in the French Renaissance style of architecture, with a frontage of 83 feet on Cheltenham avenue, and 124 feet on Wayne avenue. It will be six stories in height, with basement and sub-basement, built of brick and terra cotta with ornamental galvanized iron cornices with ornamental iron balconies. It will have a roof of slate. It will contain 75 bed rooms with baths and other rooms. The dining room and banquet hall will be located on the sixth floor. The second, third fourth and fifth floors will be divided into bed chambers and reception rooms. A re-

ception room, exchange, guests' room and smoking room, with a large entrance hall, will occupy the whole of the first floor. The basement floor will be divided into a billiard room, supply and store rooms and laundry. Bids are due March 1.

C. E. Schermerhorn & Watson K. Phillips, associate architects, 430 Walnut street, are working on drawings and specifications for a Colonial residence, to be erected at Lambertville, N. J., for Mr. George W. Massey. It will measure 50 x 35 feet, with a service wing on the rear. It will be erected with Colonial red brick and will have a green slate roof. The first floor contains a drawing room, library, dining room, toilet, kitchen, laundry and pantry, and maid's sitting and dining rooms; the second floor, four large chambers, sewing room and bath room; third floor, guest chamber, servants' rooms, bath and store rooms. The main portion of the house will be finished in white enamel and quartered white oak, the balance of the house in chestnut. Enclosed porches and terraces are included. The following are included: Cement cellar floor, Indiana limestone trimmings, tile bath rooms, toilet and mantels, panel wainscoting, hardware, painting, plumbing, hot water heating, gas and electric lighting, refrigerator, etc. Local contractors will be invited to estimate in about six weeks.

Rankin, Kellogg & Crane, architects, 1012 Walnut street, have plans nearly completed for the proposed alterations and additions to the Second Regiment Armory building on Broad street below Susquehanna avenue. The addition will be three stories in height, 100 x 200 feet. It is proposed to add two additional stories to the present building which is now one-story high. It will be altered on the interior and provision will be made for a large amphitheatre capable of accommodating about 9,000 people. The hanging galleries on the mezzanine floor, which are used at present for officers' quarters and company rooms, will be torn out entirely and replaced with large galleries, which will seat about 3,500 people. The officers' headquarters, medical room and quartermaster's department will be located in the new front wing, and there will be ample room for the guard and drill floors in the basement, which will be 100 x 200 feet. The basement will also be equipped with a swimming pool and a gymnasium. The entire structure when completed will measure 300 x 200 feet. The building committee consists of the following gentlemen: Colonel A. H. Hartung, Colonel A. P. Kunzig, Captain F. W. Ling, Major Philip H. Kunzig and Captain John H. Hall.

ARCHITECTS' NOTES.

A. A. Ritcher, architect, New Shenk Building, 779 Cumberland street, Lebanon, Pa., has been selected in competition to prepare plans for the Frankford Avenue M. E. Church, situated on the corner of Frankford avenue and Foulkrod street, Frankford, this city, for a one-story and basement church and Sunday school building, to be erected at a cost not exceeding \$50,000 complete, with all modern church and Sunday school appointments. Stone will be used for the exterior facing, and the present church building will be incorporated in the new work. The basement will be fitted up with lecture and social rooms, men's fraternity room, gymnasium, toilets and shower baths. Work on the final plans will be completed in a short time, and estimates for the entire building will be asked for by the committee in charge. Rev. W. E. P. Haas, pastor.

Alexander Wilson, Jr., will erect a six-story modern apartment house, 150 x 175 feet, at the southeast corner of Thirty-eighth and Locust streets, from plans by Clement Rennington.

Mclvain & Roberts, architects, Land Title Building, are completing plans for a three-story stone residence, to be built in Ardmore, Pa., for Rollins Norris. The plans call for a handsome structure in the colonial style of architecture, to cost about \$15,000.

C. E. Rahn, architect, 410 Walnut street, has plans on boards for a two-story addition, 20 x 40 feet, also for alterations to the Citizen's Republican Club house, at the northwest corner of Fifteenth and Lombard streets, to cost about \$5,000.

The Evangelical Lutheran congregation, who propose to erect a new edifice at the Falls of the Schuylkill, has sold its property on Indian Queen Lane, below the Philadelphia & Reading Railway, measuring 55 x irregular shape, for \$5,350.

Mantle Fielding, architect, has removed his offices from 518 Walnut street to 512 Walnut during the rebuilding of the former building. He will re-occupy his old offices at 518 Walnut street in about six months. The building is now undergoing extensive improvements.

The Society for Ethical Culture has purchased the property at 1012 South Front street, for the purpose of enlarging Southwark Neighborhood House, at 1014 South Front street. It will be altered and will contain a gymnasium, baths, a modified milk station, etc.

The First Presbyterian Church, of Ardmore, Pa., has secured an option on a tract of land at the northwest corner of Montgomery avenue and Mill Creek road, Ardmore, consisting of about an acre and a half.

It is proposed to build an edifice on the site in the near future. The price paid was \$7,500.

Plans are wanted for a church, to be erected at Aberdeen, Miss., on a site, 95 x 125 feet, at a cost of about \$27,500. It must have a seating capacity of eight or nine hundred persons. Mr. Gaston Therrell is secretary of the building committee and can give information.

Arnold H. Moses, 136 South Fourth street, is engaged on plans for a two and a half-story concrete block residence to be built in Merchantville, N. J., measuring 26 x 35 feet, for J. G. Fryer. He has plans on boards also for alterations to a residence in Chestnut Hill.

Charles W. Bolton & Son, architects, Witherspoon Building, have plans in the course of preparation for a three-story brick and stone synagogue, to be built on the north side of Lombard, east of Sixth street, measuring 47 x 120 feet, to cost about \$25,000, for the B'Nai Abraham congregation.

Folsom Crowe & Stanton, architects, 924 Drexel Building, are preparing preliminary plans for a two-story brick laundry building, 50 x 100 feet, the location of which is withheld for the present. The same architects have awarded a contract to Ely, Saul & Glenn to build the cottage in Wildwood, N. J., for James Gill.

Thomas, Churchman & Molitor, architects, North American Building, have distributed plans for estimates on the two and a half story stone residence, measuring 74 x 25 feet, to be built in Rydal, Pa., for John Gilbert. Frank E. Wallace, Frank W. Allison, Milton W. Young, F. L. Hoover & Sons, E. J. Heden, John Duncan, W. W. Rea's Son and Daniel W. Sperry, builders, are estimating.

Henry L. Reinhold, Jr., architect, northeast corner of Tenth and Sansom streets, has plans on boards for a brick and stone library building, 50 x 105 feet, three stories in height, to be built in Bryn Mawr, for the Academy of the New Church, to cost about \$60,000. The same architect has been engaged to prepare plans for a reinforced concrete storage vault for the store of E. E. Block & Co., Norris-town, Pa.

Henry D. Dagit, architect, 411 Walnut street, is revising the plans for the proposed new church and parochial residence, to be built in Woodbury, N. J., for St. Patrick's Roman Catholic congregation, of that place. He has completed plans for an addition to the parochial school of Our Lady of Sorrows, at Forty-ninth street and Lancaster avenue, and also for a new stone exterior walls.

Charles E. Oelschlager, architect, Harrison

Building, Fifteenth and Market streets, has distributed plans for estimates on improvements to the properties at 136-140 Walnut street, for the Robert Morris National Bank, to be used by them as a banking house. The builders invited to estimate include William R. Dougherty, W. W. Rea's Son, H. B. Shoemaker & Co., E. J. Kreitzburg, George Hogg, James G. Doak & Co., James W. Pearce and Fred. A. Havens & Co.

Trowbridge & Livingston, architects, 527 Fifth avenue, New York City, have been selected to prepare plans and specifications for a twelve-story brick, marble and limestone apartment house, measuring 100 x 100 feet, to be built on the south side of Fifty-ninth street, about 250 feet west of Fifth avenue, that city, for a company, of which Edwin De Forest Simmons, 2 East Fifty-eighth street, can furnish information. The plans will call for a structure to cost about \$500,000.

The Board of Charities in its last report stated that the Eastern and Western Penitentiaries were much overcrowded and recommended new structures. Representative Hunter, of Allegheny, has introduced a bill into the Legislature which provides for the appointment of a commission to select a tract of land in the eastern part of the State, also a tract in the western part as sites for new penitentiaries. The bill carries an appropriation of \$2,000,000 for the purchase of the sites and the erection of suitable buildings.

A. C. Shand, chief engineer of the Pennsylvania Railroad, office, Broad Street Station, this city, has had a conference with the Municipal Union Terminal Commission in Baltimore in reference to the proposed new terminal, to be built in that city, but no authoritative announcement was made. The old Calvert street station will be abandoned as a passenger depot, and used entirely for freight service. A freight tunnel will be built to obviate constructing freight cut off. The new structure when completed will be the third largest on the Pennsylvania system.

John Stafford, builder, 1112 Chestnut street, has purchased a tract of land at Twenty-eighth, Twenty-ninth streets and Montgomery avenue, 400 x 500 feet, and will build a large operation of dwellings in the spring, to cost about \$400,000. They will be modern two and three-story structures. The same builder has been granted permits to build two four-story brick flat houses, 41 x 104 feet, at the southeast corner of Thirty-third and Clifford streets, to cost \$100,000, and two four-story flat houses, 41 x 84.2 feet, at the southwest corner of Natrona and Clifford streets, to cost \$40,000.

To think about improving the appearance of your brick fronts. Don't cling to old methods, having the front bricks painted. Bricks are not made to be covered with putty and paint. Have them thoroughly cleaned and pointed by the Christensen process, which will give the fronts a new appearance and draw attention as well as increase the value of the property.

Messrs. Carrere & Hastings, architects, of New York City, who designed the new church edifice to be erected on the south side of Walnut, east of Fortieth street, this city, for the congregation of the First Church of Christ Scientist, have selected Frederick G. Myhlertz, with offices at 717 Perry Building, this city, as their supervisor and inspector of construction. Mr. Myhlertz was formerly engineer of construction of the Bureau of Building Inspection, and with his years of experience is well enabled to see that the work is executed with accuracy and promptness, as the building is to be completed in a year. The general contract was awarded to J. E. & A. L. Pennock, builders, Land Title Building, some time ago and work will be started at once.

Roland W. Boyle, architect, 1626 Chestnut street, is engaged on revised plans for the parochial school building, to be built in Edgelyne, to cost about \$25,000, for the Roman Catholic parish of St. Rose of Lima.

Harry E. De Hoff, architect, 41 South Sixty-first street, has plans on boards for a one and two-story brick abattoir building, measuring 177 x 155 feet, to be built at Leverington and Mallory streets, Manayunk, for I. W. Kerkelager.

Herbert H. Downsborough, builder, 5305 Chester avenue, has purchased two large tracts of land, one measuring 200 x 115 feet, at the northwest corner of Forty-sixth and Pine streets, and the other, 195 x 175 feet, at the northeast corner of Forty-sixth and Pine streets. The purchaser will erect a number of fine residences on the site, to cost about \$5,000 each.

Charles E. Oelschlagher, architect, Harrison Building, 1500 Market street, has completed plans for alterations and additions to the building of A. J. Bair & Son, at Nineteenth and Arch streets. The following builders are estimating: F. A. Havens & Co., Stacy Reeves & Sons, James G. Doak & Co., R. Strode & Son, Thomas C. Trafford, E. J. Kretzberg, George Hogg and J. P. Thompson.

C. E. Schermerhorn, architect, 430 Walnut street, has completed plans and distributed same for estimates among builders for a three-story residence, to be built in Germantown, for Edward Behrend. It will be built of Chestnut Hill stone, with a green slate roof. F. C. Michaelsen, Burd P. Evans & Co., Daniel W. Sperry, Matthew Schmid, McClintock & Weaver and Joseph Ashby, builders, are estimating.

Plans have been distributed by George U. Rehlfuss, architect, 26 South Fifteenth street, among builders for estimates on the alterations and additions to the George W. Childs mansion, at the southeast corner of Twenty-second and Walnut streets, to be fitted up for

S. Asher & Son, as a dancing school and banquet hall. William R. Dougherty, A. Raymond Raff, The William Steele & Sons Co., James G. Doak & Co., Burd P. Evans & Co., Fred A. Havens & Co. and Appleton & Burrell are estimating.

Ballinger & Perrot, architects and engineers, 1211 Arch street, have distributed plans for estimates on the proposed fourth and fifth-story addition to the factory building of Ivins, Dietz & Metzger Company, at Seventh street and Lehigh avenue. Burd P. Evans & Co., Roydhouse-Arey Co., A. Raymond Raff, Appleton & Burrell, The Haibach Contracting Co., W. J. McShane, Cramp Co. and P. J. Hurley, builders, will submit estimates for its erection.

Savery, Scheetz & Savery, architects, Stephen Girard Building, have invited bids from Calvin W. Rogers, E. J. Hedden, Ferguson & McDowell and G. B. Jeffreys, on the two-and-a-half-story stone residence, measuring 25 x 45 feet, to be built in Cynwyd, Pa., for Kershaw & Robbins. They have completed plans and specifications for a handsome two-and-a-half-story residence, 41½ x 44 feet, to be built in Llanerch, Delaware county, Pa., for Dr. William F. Moore. The same architects have awarded a contract to C. A. Norton, builder, to build the new cottage in Wildwood Crest, N. J., for Dr. D. S. B. Pennock. Edgar V. Seeler and Frank C. Roberts, architects, Real Estate Trust Building, southeast corner Broad and Chestnut street, distributed plans for estimates on the seven-story addition to the Real Estate Trust Building, to be built at 1338 Chestnut street. It will match the present building in design, and measure 22 x 140 feet. The following builders have been invited to bid: John R. Wiggins & Co., Arthur H. Williams' Sons, Henry E. Baton, Cramp & Co., Thompson-Starratt Co., George A. Fuller Co., The William Steele & Sons Co., James G. Doak & Co., J. E. & A. L. Pennock, Jacob Myers & Sons, Roydhouse-Arey Co. and Doyle & Co.

Horace Trumbauer, architect, Land Title Building, has distributed plans for the two-and-a-half-story stone residence, 104 x 54 feet, to be built in Haverford, Pa., for Thomas P. Hunter. It will be built in the English style of architecture and contain about twenty rooms. The cost will be in the neighborhood of \$100,000. George F. Payne & Co., The William Steele & Sons Co., J. S. Cornell & Son, Milton W. Younger, Jacob Myers & Sons, Henry L. Brown and W. W. Rea's Son builders, are estimating. Elkins, in Abington.

The Girard Realty Co., 1026 Girard avenue, will build an operation of about 104 modern dwellings, in Milmont, Delaware county, Pa., to cost about \$2,500 each, for which plans are now in the course of preparation. Milmont is on the line of the Philadelphia Rapid Transit Company's road running between Chester and Darby, and is located on high ground. At present there are comparatively few houses in the place, but the erection of the proposed one hundred and four dwellings will transform the village into a fine residential town similar to Ridley Park, Prospect Park, Norwood and the various other contiguous boroughs. Operations on the projected operation will be started at the opening of spring and the houses will be ready for occupancy during the early part of summer. J. H. Spielman, a representative of the company, can give information.

E. Allen Wilson, architect, 815 Land Title Building, is engaged on sketches for a large operation of three-story brick dwellings to be built at Fifty-first and Walnut streets, measuring 16.4 x 50 feet each, and to be built in pairs, with attractive front in various different styles of architecture. R. T. CROPPER'S DISPLAY OF BRICK, CLAY AND SLATE PRODUCTS.

There is probably no better display of fine brick in the whole State of Pennsylvania than that of R. T. Cropper, 303 Builders' Exchange, this city. Mr. Cropper has a display arranged in twenty-two sections of shelving in his office, and it includes fine face brick of various shades and colors, as well as glazed brick and vitrified brick for street paving, and it is safe to conclude that the display embraces all that there is in the way of brick that would be of service to any one, besides which the brick is arranged with pointing between the courses thereby affording architects, owners and builders a practical illustration of the effect of color when the brick is in place in the building. Mr. Cropper has been identified with the Akton Roofing Tile Company for the past seventeen years. This company manufactures roofing and floor tile, and are pioneers in the tile business, their plant being in operation since 1875. Mr. Cropper is the selling agent for the following concerns: The Kittanning Clay Product Company, The Olean Pressed Brick Company. Also a large concern manufacturing iron spot faced brick, The American Enamelled Brick and Tile Company, and the East Ohio Sewer Pipe Company. Mr. Cropper is also in touch with and is the selling agent for all the slate products of the country known to the trade.

Oliver Randolph Parry, architect, 1723 Chestnut street, has prepared sketches for a two family apartment house, measuring 23 x 66 feet, to be erected at the shore. It will be constructed of reinforced concrete and contain, in each apartment, a living room, 16 x 22 feet. Four chambers, dining room, kitchen, bath room and toilet room. It will have porch both front and side. The interior will be finely finished with all modern appointments. There will be a heating plant and wash room on the first floor for both families. Mr. Parry has planned a large number of concrete dwellings, which has attracted considerable attention when completed on account of their unique appearance and the many new features presented therein.

Myhlertz & Walsh, engineers, 717 Perry Building, have plans on boards for two bungalows, to be built in Stone Harbor, N. J., for B. F. Banes, of Germantown.

Joseph M. Huston, architect, Witherspoon Building, will invite bids on revised plans for the new edifice, to be built at Fifty-second street and Chester avenue, for the First Presbyterian Church.

The School Board of Riverton, New Jersey, will receive competitive plans for a two-story brick school building until May 1st, 1902. The estimated cost is \$25,000. E. R. Compton, of the Board of Education, can give additional information.

The School Board of Richlandtown, Bucks county, has bought at lot, 175 x 200 feet, upon which a new school building will be erected the coming summer. The building committee consists of George W. Amey, Dr. Brown and Wilson H. Henry. The structure will be of brick, and will contain four rooms.

Carl P. Berger, architect, 1416-1418 South Penn Square, has finished plans and specifications for remodeling the building at 711 Christian street, for A. & V. C. Giannini, and has invited bids of Burd P. Evans & Co., Philip Halbach Co., Geo. Hogg, Antonio Donato and D. F. Wholey. The building adjoins Verdi Hall, and is to be connected to same, forming ice cream and confectionery.

Ground will be broken at once for the handsome new apartment house, to be built at the northeast corner of Thirty-fourth and Chestnut streets, by Jere L. Cresse. The plans were prepared by Milligan & Weber, architects, 520 Walnut street, and call for a four-story structure, 100 x 114½ feet, of Pompeian brick, stone and terra cotta in the Renaissance style of architecture, to cost about \$150,000.
